-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of Group I, and the species of N,N,N',N'-tetra(hydroxyethyl)ethylenediamine, which reads on claims 1-3, 5-9, 12-17, 19-23 and 26-32, in the reply filed on 04/27/2006 is acknowledged. The traversal is on the ground(s) that, "according to second paragraph of MPEP 803, if the search and examination of all the claims in an application can be made without serious burden, the examiner must examine them on the merits, even though they include claims to independent or distinct inventions." This is not found persuasive for reasons already given in the written restriction. The inventions require a different field of search and all the species are not art recognized equivalents.

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Art Unit: 1713

3. Claims 1-3, 5-9, 12-17, 19-23 and 26-32 are rejected under 35 U.S.C. 102(b) as being anticipated by Moreau et al. (USPN 6,290,770) and under 35 U.S.C. 102(e) as being anticipated by Anderson et al. (US 2003/0127026).

Each of Moreau et al. (col. 10, lines 3-13 and first two columns Table 1A) and Anderson et al. (¶s 42, 149 and 153) individually teach additives for cementitious compositions comprising the claimed polycarboxylate polymers in combination with one of the claimed set retarders and a polyhydroxyalkylamine such as tetra(hydroxyethyl)ethylenediamine.

Thus, the requirements for rejection under 35 U.S.C. 102(b and e) are met.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dr. Kelechi C. Egwim whose telephone number is (571) 272-1099. The examiner can normally be reached on M-T (7:30-6:00).
